

**Country Day is a Nut Free facility.**

With the rise of nut related allergies, we offer an environment where students who have allergies to nut products will be safe.

We have students enrolled with **severe** allergies to nuts and nut products. With this in mind, our campus needs to be nut-product free. Please do not send any nuts or nut products to school for snack or in lunch boxes. (If your student enjoys peanut butter sandwiches, this can be a 'treat' at home.) Please make sure to check the labels of products under the nutritional guide for the statement that says 'this product may contain nuts or be produced in a facility that processes nuts.' (This includes cashews, almonds, peanuts, etc.)

Thank you for your help in keeping our children safe.
